

Getting Prepared Together

Are you ready?

Did you know?

- Only 57% of people report that they have readiness items set aside in their home for use in a disaster.
- Just 34% of people have readiness supplies in their car
- Less than half of households have an Emergency Plan
- 42% of individuals report that they would need help during a disaster

It takes three steps:

1. Get an emergency supply kit.
2. Make a family emergency plan.
3. Be informed about the different types of emergencies that could occur in your area and their appropriate responses.
